

PERSEUSS

LITE

Perseuss LITE is a global fraud-mitigation tool for small and mid-sized travel agencies made stronger by the combined intelligence of its participants.

THE PROBLEM

Fraudsters use stolen credit card details to purchase goods and services. This means that 1 to 2% of the booking attempts at travel agents are fraudulent.

OUR SOLUTION

Perseuss LITE is an affordable and easy to use tool, allowing travel agents to check suspicious transactions and stop fraudsters from stealing their money.

SAVE MONEY

less chargebacks &
less false positives

SAVE TIME

less flagged transactions
& less manual review

FEATURES AND BENEFITS

ARTIFICIAL INTELLIGENCE

Using AI algorithms, Perseuss LITE searches 3.2 billion data elements for instances of fraudulent activity, including real, world-wide travel data and actual reports shared by travel agents.

RISK SCORE

Perseuss LITE delivers a data-driven Risk Score that agencies can use when making decisions whether to accept or block a potential customer.

ENHANCED CONFIDENCE

It gives travel agents the confidence they need to accept the customers they may have otherwise rejected and to reject potential fraudsters that would otherwise lead to lost revenue and lost time.

LEADING TECHNOLOGY

Small and medium size agencies get access to the same sophisticated fraud monitoring tools that large agencies have.

PRICING

Agencies get access to Perseuss LITE starting at only €29,99 per month.
